

The Gazette.

A. THOMSON, EDITOR AND PROPRIETOR.

Delaware, November 5, 1888.

THE NOVEMBER ELECTIONS—REPUBLICAN TRIUMPH.

The elections of the present week have resulted most gloriously for the Republican cause. In connection with those which took place the 2d Tuesday in October, they have in the forcible language of the Cincinnati Commercial of yesterday, "resulted in the complete overthrow of the Administration, and the utter annihilation of all its power. It is now dishonored, beaten, despoiled and exorcised. It is more trampled than that of Pierce in '54. If the elections of the second Tuesday of October crushed the Administration, the elections of Tuesday pulverized it. The elections in October were hard fought battles. Those of this month are routs of the demoralized Administration. There is no doubt but the Anti-Administration majority in the next House of Representatives will be large. The majority against the Administration will be clear even without the Anti-Leocompton Democrats."

The returns are incomplete and scattering—but seem clearly to indicate the following results:

NEW YORK.—Morgan (Republican) elected Governor, together with the entire Republican State ticket, by about 20,000 majority. Of the 34 Congressmen only four Administration men are known to be elected, and one of them owes his election to the votes of U. S. troops. The Legislature overwhelmingly Republican in both branches.

MASSACHUSETTS.—Republicanism has swept over the State with the force of a tornado, carrying everything before it. Banks (Republican) elected Governor by an overwhelming majority—an unbroken delegation of eleven Republican Congressmen elected—Legislature Republican in both branches by more than three to one.

NEW JERSEY.—Administration party totally routed. Opposition elect the entire Congressional delegation, being a gain of three members—Legislature, opposition majority in both branches, which insures the gain of U. S. Senators.

DELAWARE.—Disputes conflicting. Democracy have probably elected their Governor and a majority in the Legislature; the opposition electing the Congressmen, being a gain.

MICHIGAN.—Republican throughout; Governor, State ticket, entire Congressional delegation, and Legislature.

WISCONSIN.—The returns indicate the triumph of the Republicans, including the election of the entire Congressional delegation.

ILLINOIS.—No reports given as regards Congressmen or State ticket. The following comprises the latest news relative to the Legislature, which, with the advantage he has in the holding-over Senators, renders it probable that Douglas has triumphed, but this is an Administration defeat.

A Chicago dispatch, dated 8 p. m. Wednesday evening says:

As far as heard from, the Legislature stands: House, Republicans 55; Democrats 33; Doubtful, Senate, Republicans 11; Democrats 11; Doubtful 3.

The doubtful counties are: Fulton (two members), which gave a Democratic majority of 150 in 1886; Madison County, (two members), which elected Republican and Democrat (in 88) by a large majority; McDonough County, (one member), which gave a Republican majority of 70; Hancock County, (one member), which gave a Democratic majority of 100; Wabash and White Counties, (one member), which gave a Democratic majority of about 100.

OFFICIAL ABSTRACT OF VOTES.—Below we give the official abstract of votes cast at the recent election in this county—excepting those given for Commissioner, Inferior, Sheriff and Coroner, for which office there were no opposers. The vote of PAUL, Republican nominee, 2301; RILEY, for Commissioner, 2273; WILEY, for Coroner, 2202.

The notorious filibuster chief, General W. H. P. Clark, who has twice heretofore been elected to the hall by the opportune intervention of U. S. naval officers, is about to make another attempt to invade and subvert Nicaragua—and has issued a circular inviting those who desire to join in the undertaking to report themselves at Mobile, previous to the 20th inst., at which time the vessel chartered for the purpose of transporting "emigrants" to that country will leave. These movements have called forth from the President a proclamation of the usual form, warning citizens of the United States of the danger of joining in such unlawful enterprise, and cautioning Government officials to prevent the embarkation and departure from our shores of the contemplated expedition. Whether or not it will be effective in arresting the further prosecution of the piratical project, remains to be seen—if it is, it will be the first instance of success in cases where the organization was effected in the South and the extension of the area of slavery in chief danger.

Changes from one party to another have slowly been of frequent occurrence, and they will doubtless continue while parties exist. Formerly they were noticed with particularity as they occurred, in all parts of the country, but of late descensions from bogs Democracy to Republicanism throughout the Northern States have become so numerous that generally the only notice taken of them is to record the descensions by platform, companies and regiments, from the Administration ranks, as indicated by the election returns. Among the individual instances of change that have recently come under our observation, are eleven hitherto prominent Democrats of Iowa, Michigan, who came out in a manifesto, published in the last number of the Iowa Gazette, and announce their renunciation of bogs Democracy and give in their adhesion to Republicanism. On the other hand, the notorious O. B. MATTERS, of Utica, N. Y., who was expelled from the House for corrupt practices, has turned Democrat, and taken an active part against the Republicans in the late contest in that State.

A terrible tragedy was enacted in Cincinnati Saturday night last. Three young men, some of respectable and wealthy citizens, visited a house of ill fame, two of whom got into a quarrel with one of the female inmates, which was followed by a sanguinary fight, in which one of them drew a large knife with which he stabbed her, causing almost instant death.

The time for collecting taxes having arrived, it has become necessary for Treasurers to decide upon their course in reference to the "specie clause" of the sub-treasury bill passed by our Democratic Legislature during their last session. In some instances the spirit of the law is carried out, and to be able to comply with its requirements relative to paying out all sums of \$5 and under in coin, tax-payers are required to pay specie in discharging their tax, when it does not exceed \$5 in amount—in other, and perhaps the majority of cases, no regard is paid to the requirement, the Treasurers entertaining no fears that persons can be found to commence a prosecution for the official delinquency—and in still other cases an ingenious "dodge" is resorted to, by which the requirement is virtually disregarded but the penalty for such disregard avoided. This process is explained in the following extract from the Union Press, showing the manner in which the "hard" section of the law is got along with in a neighboring county on the west:

"The Treasurer does not fail to pay every order of \$5 and less in coin, but after so doing he requests an exchange of the coin so long as the Treasury has specie, and only being compelled to part with some \$10 to \$20 in coin. We speak advisedly as to our county, when we say to the people that the old gold dollars they receive from the Treasury the less gold dollars will be required of them in tax-paying time. None taken away, none required."

By the following, copied from the Columbus Gazette of Saturday last, it will be seen that important changes are to take place in the State Journal. From our knowledge of the new editor and publishers, we doubt not the central organ of the Republican party will under their guidance be a first-class paper in every respect, and command a liberal and remunerative support.

We learn that arrangements are concluded by which the Ohio State Journal paper has been transferred from its present proprietor to the hands of a new company, composed of J. H. Miller, the enterprising Book Publisher and sellers of this city, and Henry D. Cooke, the able and accomplished editor of the Standard Register. Mr. Cooke, with a full corps of assistants, will take charge of the editorial department, while the Millers will look after its finances and the extension of its circulation and business. The publishing office will be removed to the Miller Block, opposite the Gaynes Block, on Town street. The paper will be put in entire new type, and in all respects be made a model daily newspaper. We learn the first issue will be out just as soon as the new type, &c., can be procured."

C. C. & C. RAILROAD.—This is one of the best managed and most successful roads in the country; and while the stock of most other roads is saleable at all commands only a nominal sum, the stock of the C. C. & C. commands a good price and is much sought after—the last quotations placing it at \$96 per share. A statement of the earnings for the nine months ending last October shows a most gratifying result considering the hard times and consequent stagnation in business and the competition it has encountered in rival roads. The net earnings during that time were \$807,599.78, being an increase of \$57,938.35 over the earnings of the corresponding period the previous year.

THE HORTICULTURIST.—The November number of this interesting publication is received. The table of contents comprises nineteen original articles treating on subjects in the several departments of horticulture and rural art; the usual Editorial Miscellany; Answers to correspondents; Miscellaneous; Vineyard, Greenhouse and Garden Calendar for the month; with eleven illustrations of the subjects discussed. It is a work worthy the attention and support of all interested in rural affairs. A new volume commences with the January number. C. M. SEXTON publisher, New York. Terms \$2 per year.

MR. COCHRAN. an Anti-Leocompton Douglas Democrat, has been removed from the office of Collector of Customs at Maumee City, in this State, and his place filled by the appointment of EMERY D. PUTTER, an Administration Democrat.

This announcement is justly regarded with alarm by such office holders throughout the State as have failed to come up to the standard of faith prescribed by the President, and against whom a similar manifestation of his displeasure has been threatened.

It seems that BRADY and FREED, the two Indiana Leocomptonists who have been permitted by the Administration majority in the U. S. Senate to hold seats in that body to which they were never elected, are not to be permitted to remain in undisturbed possession of the places they have usurped. The Cincinnati Commercial of Tuesday says:

"We have from good authority in Indianapolis the following statement: 'Our Legislature will meet on the 20th of November. The pretended election of Bright and Fitch will be repudiated by a joint resolution, and two Congressmen sent to Washington to contest their seats.'"

The ravages of the yellow fever in New Orleans the past summer and present fall, have been terrible. From the 10th of June to the 10th of October the deaths, according to the official report of the Board of Health, numbered 6,386—and since that time the number daily reported has ranged from 60 to 90 a day up to the latest, when the reports ceased, the disease being regarded as no longer epidemic. The total number of victims during the season considerably exceeds 7,000.

While the Democratic State ticket was elected in Indiana at the recent election, by majorities ranging from 1500 to 4000, the majority against the Administration, taking the most reliable test, (that of the vote for Congressmen) foots up 7,111. This shows clearly where the Hoosier State will stand in the contest of 1890.

POOR PENNSYLVANIA.—Here are some of the Pennsylvania Democrats, now in national offices:

James Buchanan, President.

James Black, Attorney General.

G. M. Dallas, Minister to England.

J. R. Chandler, Minister to Naples.

Mr. Buckalew, Minister to Ecuador.

Mr. Reed, Minister to China.

Mr. Clay, Minister to Lima.

Mr. Jones, Minister to Austria.

It is a shame that Pennsylvania should repudiate a party that deals so generously with her "favorite sons."

The Pyramid of Pharon.

THE PYRAMID OF PHARON.—The Democratic Press has heretofore cultivated a taste for pyramids. Their columns have at times been adorned by them, and like the Egyptians they have pointed to these elevations of their fancy with emotions of pride and pleasure. But unlike those in the old world, Democratic pyramids crumble in ruins or become reversed, so that they rest on their apex and tell the world how unstable are the calculations and artifices of the fabricators. The erections of Democratic effort, the edifices of Democratic ambition, have been the subject and the derision of the world, and the derision of the world has been the subject of the Democratic Press.

Another demonstration against the introduction of the Confession into the church of England, had taken place in London. Formidable defensive works have been completed in the city. The shore and the Atlantic Cable was about to be laid at Valencia.

RUSSIA.—The insurrection of the peasants in the Eastern provinces are more serious than was first reported.

CHINA.—The London Times complains of the part played by the American Minister in the recent negotiations, in begging instead of demanding a treaty, as the allies did.

FRANCE.—The French Ambassador at Rome has made a strong statement to the Pope touching the recent abduction of the Jewish child, heretofore reported.

The French Government refuses the arbitration of England in the affair with Portugal.

The Columbus (Ind.) Democrat gives a full account of the suicide of a man, at that place, who had been a member of the Legislature.

The telegraph told us of the affair, with its accustomed brevity. Mr. WILLIAM MENZIES, an old and well known citizen, had been sued and judgment obtained against him for the discharge of a debt.

He had been unable to find anything to satisfy the execution. The plaintiff believed that M. had property, and instituted an act in the Circuit Court to charge the body of Menzies in execution under the statute of the State.

He had been a member of the Legislature, and a member of the House of Representatives. He had been a member of the House of Representatives, and a member of the House of Representatives.

The Travelling Community.

THE TRAVELLING COMMUNITY.—A remedy cannot be too highly recommended.

To the travelling community, especially, it is certainly an invaluable remedy; having little or no exercise, constantly exposed and subject to the effects of a change of climate and water, they require some pleasant medicine of this kind to regulate the bowels.

The travelling community, especially, it is certainly an invaluable remedy; having little or no exercise, constantly exposed and subject to the effects of a change of climate and water, they require some pleasant medicine of this kind to regulate the bowels.
